### **B.3 Progress Report**

The agency continues to maintain its eligibility by timely submitting all HUD mandated reports and documents throughout the year.

The agency continues to strive for a high performer rating in its SEMAP audit. The agency conducts quality control audits for SEMAP on a monthly basis. The agency is rated as a High Performer scoring 100% on its 2024 SEMAP certification.

The agency will continue to improve the accuracy of rent calculations. Continuing education, meetings, trainings and webinars are offered to staff who are responsible for rent calculations and rent determinations. With HUD's overhaul of the Voucher Program, NCHC has enrolled staff in HOTMA, NSPIRE and SAFMR's trainings. Three of five staff members are certified as HCV Specialists. Staff will be required to be certified in HOTMA in the future.

The agency will continue to eliminate physical participant files by creating electronic files in order to free up space in the office and have one point of accessibility for all employees. NCHC has purchased an on-line portal through their software provider that property owners, participants and applicants can use to receive/send documents. This will further reduce paperwork as well as reduce postage costs to the agency.

The agency will strive to maintain a lease-up rate of at least 98% in the Housing Choice Voucher Program. As of August 2025, the agency's lease-up rate is greater than 98%.

The agency will explore new methods of conducting property owner outreach in order to provide more unit availability for the program.

The agency will continue to work with program participants to become economically self-sufficient through the FSS Program as long as funding is available from HUD. The FSS Program will continue to outreach to new partners such as community organizations, social services and businesses that can provide their resources and expertise in supporting the program goals of the participants.

From January 2025 through July 2025, two participants graduated from the FSS Program and three more participants are scheduled to graduate in September 2025, October 2025 and November 2025.
